

Certificate

No. 25889/168/2010

It is to certify that

Katarzyna Baścik

has successfully completed the online course:

Dietetics

with the use of methods and techniques of distance learning
used by the Polish Virtual University.

The course provides skills and knowledge in the field of:

- energetic processes and water balance in a human body,
- nutrients which are the sources of energy (proteins, carbohydrates, fats) and which are not the sources of energy (vitamins, minerals),
- norms of nutrition,
- selection of nutrients in a diet,
- using appropriate diets,
- modifying diets in different medical conditions of adults and children,
- appropriate feeding of a newborn and an infant,
- the most common nutrition mistakes,
- the role of a diet in preventive medicine.

Given at PVU, Poland, Lodz
this 25th day of April 2010
